OVERVIEW

Hi! I am Md. Asadullah Chowdhury and I am introducing myself as a Full Stack Web Developer. I have been working as a Web Developer for almost 4 years. I like to work with new technologies and learn new things.

I am experienced with developing professional web applications using PHP, Laravel, ReactJS, Redux, VueJS, Vuex, Vue Router, Angular cli, ngx and Axios. I have also worked on Laravel VueJS SPA project.

I also have a good understanding of project algorithms which helps me understand and manage project requirements easily and accurately.

I am familiar with Laravel MVC Pattern and the huge package library of Laravel.

I love to study new technologies and develop my skill set and I try to give best effort to my projects.
